Product Overview

ENERGY STAR Certified Tankless Water Heaters Get Rebates Tankless water heaters are significantly more energy than standard tank water heaters. Save $100 to $300 annually.

Smooth Hot Water For Full Family Activities No matter what time the day may be, from laundry to the dishwasher, you'll always have hot water when you need it. With 9.5 GPM of flow rate.

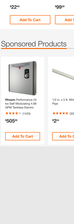
Lower Water Heating Costs & Same Water Flows Your Family Needs Tankless water heaters only use energy when you want hot water.

Get More Space for Storage Tankless water heaters save the floor space that they, as you would have with a traditional tank water heater.

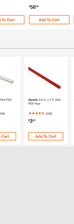
Longer Vent Runs Longer vent lengths provide flexible installation options. Up to 150 ft. with 3 in. and 90 ft. with 2 in.

Water Savings Water flow rate is up to 1.5 GPM with an aerator.

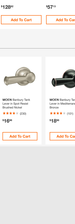
Month-Two Demands Tankless water heaters can provide endless hot water for your family's demands.



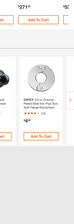
Fuel Type & Sizes Tankless water heaters are available in natural gas, propane (LP), and electric models.



Indoor Model Tankless water heaters are mainly used for indoor installations.



Household Size & Bathrooms Tankless water heaters are available in various flow rates to meet the hot water demands of your household. Consider the number of bathrooms in the space as the same time.



Ready to Connect Tankless water heaters are ready to connect to your home's Wi-Fi network and Bluetooth.

Make It Just Right for You Accessories are sold separately to make it even more tailored to your home. Consult a professional to help you select the right accessories.

This Rheem Performance Platinum High Efficiency Tankless Water Heater provides endless energy cost savings and more than 81-100 over 12 years. It's ENERGY STAR Certified and with a 0.94 UEF, qualifies for many rebates and incentives. It's also part of the exclusive Water Savings Setting can save 1,700 Gal. of water per year. Rheem Tankless Water Heaters are preferred by professional plumbers because the ProCore 458 model can provide enough hot water to supply up to 5 bathrooms at the same time per a 50 °F temperature rise.

- Click here for our Sizing Guide to ensure you choose the right Rheem tankless model for your region and usage
- Continuous hot water: Rheem performance platinum tankless water heaters heat water when you need it, for as long as you need it. Unlike tank models, the ProPlus model can provide enough hot water to supply up to 5 bathrooms at the same time per a 50 °F temperature rise.
- Saves water: save up to 1,700 Gal. of water per year with our exclusive water savings setting.
- Saves energy costs: Tankless water heaters heat water only when you need it which means no energy costs from day one and combined with Rheem condensing technology, this leads to estimated energy cost savings more than $1,100 over 12 years.
- Additional savings: this product qualifies for rebates through many utility companies and state/federal governments look below for more information on how to claim your rebate and tax credits.
- Saves space: small, wall-mount design frees up valuable floor space when used in home.
- Perfect for replacement: compatible with standard gas line making it easier to replace a traditional tank; also, advanced technology includes innovative installation location options, venting lengths up to 150 ft. (4.5 in. PVC) and up to 90 ft. on 2 in. PVC.
- Saves on installation costs: included components, like the horizontal 3 in. vent terminated kit and built-in condensate neutralizer, and low-cost PVC venting compatibility help to keep installation costs to a minimum.
- Easy to use: our maintenance window setting alerts you with a flashing warning code when it is time to call for a regular maintenance check-up. Also, the digital temperature control display makes it easy to adjust water temperature as desired.
- Warranty: 12 year heat exchanger & 10 year labor warranty when installed by a professional 5 year on thermal expansion.
- Recirculation pump kit ready: quickly retrofit with our tankless recirculation pump kit when looked to hold 4 RETHKITS and hot water recirculating pump with under sink kit when looked to hold 4 RECAK. It's the ultimate in hot water convenience and saves up to 10,000 Gal. per year!
- Another enabled: this product can connect to the EcoNet mobile app so the Tankless system accessories to enable if RERHKIT5PEN sold separately.
- Reliable hot water solution from Rheem, the global leader in water heating.
- Call 1-800-432-2503 before noon for same-day installation service in most areas, or visit our Water Heater Installation page for more information.
